

Basic Details of the Team and Problem Statement

Problem Statement Title:

**Multi-Restaurant Ordering Complexity,
High Delivery Fees & Group Order Friction**

Team Name: **Team Food Fusion
Innovators**

Team Leader Name: **Divesh Salve**

Food Fusion – Proposed Solution

Proposed Solution

Basic details along with features:

- 🍕 **Multi-Hotel Single Cart Engine:**
Add dishes from multiple restaurants into 1 single cart with combined delivery fee discounts.
- 👥 **AI Group Order Room & QR Code:** Friends scan QR code (FF-R00M-9821) to add items & auto-split bills.
- 🗣️ **AI Delivery Support Chatbot:**
Floating AI assistant for instant order status & coupon help.
- 🎡 **Gamified 3D Fortune Wheel:** Spin wheel rewards (1 daily spin + bonus spin on food orders).
- 🔍 **Double-Click HD Image Zoom Lightbox:** Full-screen 300% zoom controls for food dish images.
- 🌱 **Pure Veg / Non-Veg Mode:** One-click dietary filter.

Tech Stack & USP

Libraries and Technologies Used

- **Frontend:** React 19, TypeScript, TanStack Router
- **AI Assistant:** Floating AI Delivery Support Bot Engine
- **Styling & Motion:** Tailwind CSS, Glassmorphic Design, SVG Engine
- **Backend API:** Python 3.11 (FastAPI / Flask `server.py`)
- **Server Engine:** TanStack Start / Nitro SSR Engine
- **Database & Auth:** Supabase Database SDK + Local Persistence Store
- **Payments & Icons:** Razorpay Sandbox, Lucide React Icons

Existing Projects vs Food Fusion USP

- **Existing Platforms (Zomato / Swiggy):**
 - Restricted to 1 hotel per order (double delivery fees).
 - Manual bill calculations during group dining.
 - Static support forms with delayed resolution.
- **Food Fusion Unique Selling Proposition (USP):**
 - **Multi-Hotel Single Cart:** Order from 2+ hotels in 1 checkout.
 - **AI Group Room & QR Code:** Automated bill splitter per member.
 - **AI Delivery Support Chatbot:** Instant automated assistance.
 - **Interactive 3D Spin Wheel:** Instant coupon unlocks.

Food Fusion – Key Unique Features & Innovations

Multi-Hotel Single Cart Engine

Combine dishes from multiple partner restaurants in 1 single checkout. Automatically calculates combined delivery savings (saves ₹39+ per extra hotel).

AI Delivery Support Chatbot

Floating interactive AI assistant (Food Fusion AI Delivery Assistant) providing real-time order tracking, coupon assistance, and instant query resolution.

AI Group Order Room & QR Bill Splitter

Generates 4-digit room code (FF-ROOM-9821) and SVG QR code. Friends scan QR to join, add items, and view individual bill splits in real-time.

Gamified 3D Vector Fortune Wheel

Interactive 3D SVG spin wheel with food sticker emojis (🎁, 🍷, ⚡, 🚗, 🍕, 💰). Enforces 1 daily spin limit + **+1 bonus spin** awarded on every food order.

Double-Click 300% HD Image Zoom Lightbox

Double-clicking food dish thumbnails opens a full-screen Lightbox with 300% HD zoom controls (Zoom In, Zoom Out, Reset) and 1-click cart addition.

Instant Pure Veg vs Non-Veg Dietary Mode

One-click instant theme transformation filtering vegetarian items with green Pure Veg badges and 1000px Ultra-HD photography.
